BIS 15L Project Evaluation

Directions: Please fill out the form below. Your responses will be kept confidential. Your candid evaluation of **yourself** and of **your group members** is appreciated.

Please email the completed form to Prof. Ledford (jmledford@ucdavis.edu) by 5:00p on Monday, March 18.

Your name: _____Tian Xia_____

Group #: _____3_____

Project Title: _____World Happiness Report 2021_____

1. What are the names of your other group members? Next to each name, please state their primary responsibility.
Mohit Badhan: Analyze data set and find out specific and interesting details about data.

2. What was your overall experience with the project? Do you feel like it was a valuable learning experience? Were there any problems?

 I had fun working with a data set that I find by myself. Also, it is exciting to apply what I have learned in class into real life. It is definitely a valuable learning experience to me. The problem that our group meet is that we are not able to combine a series of csv data set because they have different variable name and a lot of NAs.

3. Did all members of your group contribute evenly? Please explain.

 Yes. Mohit is a supportive and active partner. He finds out many interesting facts about the data so that I could have more detailed analysis within my ui app. When I have a question, he is always there to help. He makes the major part of the slides as well.

4. If you had to give yourself a grade (A-F) on this project, what would your grade be? Please explain.
 I will say I give myself an A. Because I think the most important thing about study is to apply what I have studied into actual work. I do have confusion and question during the process, but I came up with solutions.

5. Do you have any other questions or concerns?

 No. Thank you Ledford and Bry this quarter for all the help and support. I enjoyed the class and learned a lot.
